

SARA HOUSE

PREVENT CHILD ABUSE

April is Child Abuse Prevention Month

Join us in raising awareness and advocating for the safety and well-being of children. Together, we can make a difference. **#preventchildabuse**

Join us in bringing attention to the issue of children's safety and well-being and in advocating for their protection. We have the potential to make a difference. By educating ourselves and others about the warning signs of child abuse and neglect, we can create an environment in which all children are cared for and protected. Let us take a collective stance in support of the most vulnerable members of our society and work toward a future in which every child is protected and loved.

Are you a Mandatory Reporter? Mandatory

reporters are part of the safety net that protects children and youth and have the ability to provide lifesaving help to child victims in our community.

Interested in raising awareness of child abuse? Want to know how to prevent, recognize, and react to child abuse? Do you work with youth and want to keep them safe? If you answered yes to any of these questions, you should consider attending or hosting a Darkness to Light presentation.

NOT A NUMBER

Not a Number is an interactive child trafficking and exploitation prevention curriculum designed to provide youth with information and skills in a manner that inspires them to make safe choices. Youth learn to identify and utilize healthy support systems that may decrease their vulnerabilities.

Personal Body
Safety Education
K-2nd

Teaching body safety to students is essential for their well-being. It involves empowering them with knowledge about personal boundaries, recognizing inappropriate behavior, and identifying safe adults they can trust. By opening communication with age-appropriate language and topics fosters a safe environment.
